Chief Safety: Ed Popp
Flight Inst. Jim Soltysiak
Web Master: Mark Carey

**SES Club Meeting - Mar 18, 2023
10:00**

Come fly before the meeting

30 DAY PASS

Southern Eagle Squadron offers a \$50, 30-Day Pass for AMA members to enjoy the use of the field while visiting the area. If you decide to join the club that calendar year, the \$50 can then be credited as the "Initiation Fee" when joining as a Full member.

Up-coming Events:

Nothing to report, therefore if you have any ideas or suggestions for our 2023 events, contact Bill Cermak or Larry Ross.

FIELD SECURITY

IF YOU ARE THE LAST PERSON TO LEAVE THE FIELD PLEASE MAKE SURE THE GATE TO THE SES FIELD IS CLOSED AND THE COMBINATION ON THE LOCK IS ROTATED NOT SHOWING THE ENTRANCE CODE ON THE LOCK. ALSO IF AT ANYTIME YOU ARRIVE AND THE GATE IS OPEN AND THERE IS NO ONE FLYING, PLEASE CONTACT FRANK MINTZ OR BILL CERMAK.

PRESIDENTS CORNER

We have had several new members added to the club in the last few months. Some are seasoned flyers and some are new to the sport and will need help in getting started. If you notice someone new, introduce yourself and get to know them. If you are new do the same. You never know when you connect with someone new if they might have similar backgrounds, hometown, or hobby friends in common with you. It makes the organization much more enjoyable when friendships go beyond the flying field.

FLY BEFORE YOU BUY

Check out the SES web page for more info and great club information.

www.southerneaglesquadron.com

"WHO'S THE HIGH FLYER"

Each month there will be a question for you to find the answer. The first person to answer the question will have their name in the SES News Letter and posted on the Info board at the field. At the last 2023 club meeting, the person with the most name posted will win a PRIZE.

Send your answer to: lross04@bellsouth.net

Feb. SES Question

What AMA district is the Southern Eagle Squadron in and who is our VP on the AMA executive council?"

Winner: District 5 Andrew Girrith answer "Joe Hudacky"

Mar. SES Question

For a traditional aircraft, a good rule of thumb is to have the center of gravity (CG) approximately where?

- A) Slightly before the leading edge of the wing.
- B) Slightly behind the trailing edge of the wing.
- C) Right in the center of the fuselage.
- D) Approximately 1/3 of the way back of the wing from the leading edge.
